Docket #00N1256

To Whom It May Concern,

I am writing in support of the FDA to approve Emergency Contraceptive Pills for over-the-counter use. Emergency Contraceptive Pills should be more widely accessible to women. I believe that its use as an over-the-counter drug would benefit women who have the unfortunate occurrence of contraceptive failure, but more importantly for those women who are victims of rape.

Thank you for your time.

Sincerely,

Robin A. Millet
